

Tuition Rates

2026-2027 School Year

Our goal at PCA has always been to **“keep Christian education affordable.”** Because of that, we have tried to keep our tuition as low as possible. Last year our tuition was around 26% of the average for private schools in Oregon!

A student’s tuition generally covers around 50% of our operating expenses. The part that is not covered by tuition does not magically appear and has been covered by donors that care about Christian education in our community. **Actual cost at PCA is around \$8,000 per student.**
